## PROJECTS

### **CEO Kaizen — *Project Maintenance Team***

Oct. 3rd-7th, 2016

Conjuring of ideally, functional ideas that teams of 5 or more that were assigned through-out the warehouse(Hennessy Ind.) to have more efficient outcomes for floor production. Whether it consisted of needing to weld, lifting, guidance to 'how-the-flow' runs and implementing their ideas into reality.

### **(3)KANBAN — *Team Member(5)***

Critical thinking to making an efficient flow than its previous layout of an assembly line within Hennessy Industries production floor.
